

## 1st Grade Review / 2nd Grade Challenge

# SUMMER SPLASH!

Free & Fun Summer Virtual Lessons & Activities Created by 2nd Grade Teachers to refresh your child's skills!

To keep our student's skills fresh over the summer and give them a running start into 2nd grade content, 2nd grade teachers have created a fun and interactive website, [www.almostasecondgrader.com](http://www.almostasecondgrader.com).

### IT'S FREE & FUN FOR KIDS!

Each week during the summer, 3 lessons will be posted on the homepage. The calendar dates will be turned black to indicate that the link is active. Click on the date to:

- view a 2-5 minute video lesson
- take the poll of the day
- play web games & activities
- print 1st grade review & 2nd grade challenge worksheets

It can be difficult to get students interested in academics throughout summer, but we think we have found the solution!

Visit our site at [www.almostasecondgrader.com](http://www.almostasecondgrader.com) and save it to your favorite sites. Check back every Monday for three new lessons! Enjoy!

We are also the creators of [www.almostathirdgrader.com](http://www.almostathirdgrader.com).
